DETAILED ACTION

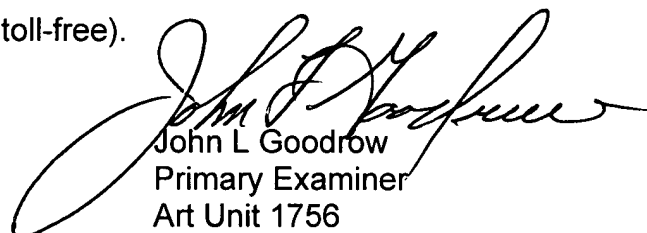

Double Patenting

Claims 1-3, and 5-12 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-17 of U.S. Patent No. 6649316 in view of in view of Elmasry. Applicants' arguments have been carefully considered but deemed not persuasive. Applicants claims are to a toner having a physical properties that relate its Tg and Baker et al 6649316 teaches the toner with a binder having a Tg of the core, D material portion, note Col. 4. The use of the toner will not change the physical properties of the toner. Elmasry et al Col 7 lines 15-35 teaches the relationship between the solvated and dispersed portions of the polymer. It would be obvious to one of ordinary skill in the art at the time of applicants' invention with a reasonable expectation of success to have as a binder a stabilizer and core with different Tg's. This action is final.
